Search Notes

Dear Examiner Fischer:

Please find attached the results of your search for 10/066587.

The search was conducted using the mandatory database lists for Business Methods.

These other sources were also used: Internet

If you have any questions, please do not hesitate to contact me.

Thanks for using EIC3600!

EIC 3600 COMMERCIAL DATABASE SEARCH REQUEST

☒ RUSH - SPE signature required: St B. Malt

Staff Use Only
Access DB# 172805

Business Methods Case: 705/27, Cross 705/16,22,28,29

Write in 705 subclass(es) to search required files for 705 cases or cases cross referenced in 705.

Serial Number: 10/066,587

Log Number: _____

Requester's Name: Andrew Fischer Examiner #: 75586

Date: November 29, 2005

Art Unit: 3627 Phone: (571) 272-6779

Mailbox Location & SPE: Alexander Kalinowski, Knox 5D-49

Bldg & Room #: Knox 5C-05

Results Format Preferred: PAPER ☒

Earliest Priority Filing Date: Feb 6, 2002 ; preferably before Feb 13, 2001

Attachments: Bib Data Sheet, Abstract, Background of the Invention, Summary of the Invention, and claim 1.
Total Pages Including in this Search Request: 10

The claimed or apparent novelty of the invention is:

Purchasing a bed over the Internet
The purchase includes fabric, bed size, cleaning code
Generating a production order for the bed and then making the custom bed.

If the above is found, add in the customer's credit, a delivery schedule, determining routing and shipping procedures

This search should focus on:
(Also include keywords or synonyms)

Buying a custom bed or configurable bed over the Internet.

.....
Special Instructions or Other Comments

If you have any questions or need help with keywords, please feel free to contact me.
COMPLETE INTERNET & PRIOR ART SEARCH REQUESTED
Please include a copy of this Sheet with the Search Results

AB- <NV> NOVELTY - A database stores the information about the sale goods
in the showroom area, product information and the selection
characteristics of the goods. A customer inputs the desired product
criteria through an input device and creates a hierarchy of preferred
sale goods based on the selection characteristics and the physical
evaluation of the goods. The preferred goods are provided to the
customer according to the hierarchy of the goods.|

AB- <BASIC> DETAILED DESCRIPTION - An INDEPENDENT CLAIM is also included
for goods purchasing method.

USE - Interactive online shopping and ordering system for
furniture, mattresses.

ADVANTAGE - Enables customer to physically evaluate the product in
the showroom area, and purchase the goods without the physical presence
of sales personnel. Fulfills the order of the goods by the customer
efficiently.

DESCRIPTION OF DRAWING(S) - The figure shows the flowchart of the
interactive stand.

Title: Beds on the web [furniture sales]

Author(s): Wilson, T.

Journal: Internet Business Magazine no.3 p.32-4

Publisher: Internet Business Magazine Ltd,

Publication Date: April 1997 Country of Publication: UK

Material Identity Number: G237-97001

Language: English Document Type: Journal Paper (JP)

Treatment: Practical (P)

Abstract: Beaudesert is offering four poster beds, made entirely to order, on the Internet. (0 Refs)

Subfile: D

Descriptors: furniture; Internet; marketing

Identifiers: four poster beds; Internet; Beaudesert; world wide web; interior design; interior decorators; advertising; web site; search engine; computer generated images; custom-made furniture

Class Codes: D5020 (Computer networks and intercomputer communications); D3020 (Furniture and office environment); D2140 (Marketing, retailing and distribution)

... worked, we planned to grow primarily by word of mouth, but then along came the Internet.'
Selling mattresses on the Internet was not part of the original marketing plan for Best In Beds, but the partners...

...according to Colvin.
Although the company maintains its Austin showroom for local business, Best In Beds now sells almost exclusively via the Internet and referrals.

'We still do a nice referral business out of the Austin showroom, but ...

...used car.'

In an easy-to-find and easy-to-understand format, the Best In Beds web site explains why the purchase of a bed is important, what makes buying a bed so difficult, and what factors should be considered when buying a bed.

And for the serious mattress shopper, the Best In Beds web site provides a questionnaire that kicks off the selection process.

'In the questionnaire we get them...consumer, you have to do it.'

Colvin, Roe and Unger agree that the effectiveness of Internet marketing discounts the notion that a customer needs to lie down on the bed before making a purchase.

'Sure, some people go to stores to test a bed, before or after they talk...

Selling sleep on the Internet .; Best in Beds moves its business to
cyberspace . (includes related article on web site sales)
... worked, we planned to grow primarily by word of mouth, but then
along came the Internet ."
Selling mattresses on the Internet was not part of the original
marketing plan for Best In Beds, but the partners...

...according to Colvin.
Although the company maintains its Austin showroom for local business,
Best In Beds now sells almost exclusively via the Internet and
referrals.
"We still do a nice referral business out of the Austin showroom, but
...

...used car."
In an easy-to-find and easy-to-understand format, the Best In Beds
web site explains why the purchase of a bed is important, what makes
buying a bed so difficult, and what factors should be considered when
buying a bed .
And for the serious mattress shopper, the Best In Beds web site
provides a questionnaire that kicks off the selection process.
"In the questionnaire we get them...consumer, you have to do it."
Colvin, Roe and Unger agree that the effectiveness of Internet
marketing discounts the notion that a customer needs to lie down on the
bed before making a purchase .
"Sure, some people go to stores to test a bed, before or after they
talk...

Integrated catalytic membrane reactors for decomposition of ammonia

Abashar, MEE

Dept. of Chemical Engng., King Saud Univ., Riyadh, Saudi Arabia

Chemical Engineering and Processing, v41, n5, pp403-412, 2002

Document type: journal article Language: English

Record type: Abstract

ISSN: 0255-2701

ABSTRACT:

...from coal gasification streams. Heat integration and equilibrium shifting are achieved by introducing integrated reaction network and various catalyst pattern strategies. Different configurations of spatially patterned catalytic beds (layers) have been investigated. Two important reactions were considered namely, the decomposition of ammonia as

...SPECIFICATION fixed.

(4) Quality characteristic specification (functionality, reliability, usability, efficiency, maintainability, transplantability, etc.) for the individual software composite items be fixed.

(5) The fractionated items (above (1)), the clarified items (above (2) ...Western people who are good at analytical thinking method based on functionalism, but a correct software -grasping thinking method, in a sense that software is a meaning containing uncertainty as its essence, never exists on the extension of the...

...at an analytical thinking method did not recognize, as a conclusion of their analysis, that 'Software is an entity of existence being uncertain essentially.' Conclusively, it has become the very root...

...fact that software problems occur in relation to this black box, success or failure of software development is to be viewed based on a quantity of black boxes.

The Y2K problem...setting SE's free from programming to enable them to dedicate to higher professional works: software determination method, software usage method, a recording medium, a processing apparatus, software maintenance method, software transplantation method, software management method, Homogeneity Map creation method, Tense Control Vector creation method, Pallet Function creation method...

...creation Function method, Duplication Vector creation method, Homogeneity Vector creation method, Action Vector creation method, software loading method, software development method, data structure

replacement method, data value replacement method, an existing program analyzing method...SE's arbitrary elements, thus, in the course of the definition of semantic quality in software production, the human dependencies can be excluded.

The present invention has the other feature that...

...made a Coupling into.

Such a mechanism can be implemented as a base for all software to form a meaning, without exception. This means that all software can be determined by the same structure, regardless of the content of function to be...

...on a computer, the Equivalence meaning-space hypothesized by this invention; '(PHI)p(,)k' represents Pallet Function which gathers, regardless of their orders, the Tense Control Vectors, such Vectors being components enclosed by '(' and ')', for the same times...bridge the gap between this providence and human recognition via words belonging to Screen in order to identify the semantic quality present in Consciousness meaning-space in the depths of consciousness...

...between Pallets; and a 3rd program (Action Vector) to execute various actions corresponding to the software.

That is, Pallet Function ignores a processing order of every word. Thus, the intrinsically unnecessary logical combination, caused by bringing an order rule...the arbitrariness from a program.

Further, the present invention has the other feature that, when software to be produced is developed onto Pallets being three domains, in order to combine word's semantic quality between Pallets for every word in the software, the 1st Pallet's semantic quality of an object word is duplicated to the 2nd...

...developed onto Pallets being three domains, semantic quality is induced for every word in the software.

That is, the development of WO2, WO3 and WO4 onto each Pallet has a role only to induce semantic quality for every word, thereby eliminating a room...mechanizing it, more efficient management of primary software without the arbitrariness can be promoted. Thus, software management based on this invention can be promoted practically further more. That is, since in...

...to appropriating select and place, onto Pallets being three domains, for every word in a software to be produced, following programs: a 1st program to establish semantic quality to the word a 2nd program to combine word's semantic quality between Pallets; and a 3rd program to execute various actions corresponding to the software, a management assisting...

...situation. An idea of this invention is to remove the arbitrariness from the occasion of software management, and this idea itself can be mechanized at ease. By mechanizing it, more efficient management of primary software without the arbitrariness can be promoted. Thus, software management based on this invention can be promoted practically further more. That is since in...

...adjustment of a program can be mechanized at ease. By mechanizing it, further dieting of software which is unique and has no arbitrariness inside can be efficiently promoted.

The present invention...

...semantic quality between Pallets; and a 3rd program to execute various actions corresponding to the software, definition on a structure of Definitive the word belongs to, a process route of the software, and a self creation requirement for the word is done on word table corresponding to...can be made extraordinarily simple. This means that the same is also true for a software operation management method.

Further, the present invention has the other feature that, it is featured that, by using the algorithm, which creates a software to be produced by appropriately selecting and placing, onto a pallets being three domains, for...

...program, an order rule is contained in programs of every word. This means that an order rule is brought about naturally by the movement of a computer. So, the logic for considering the order of every word can be excluded from software.

Also, the present invention has the other feature that in a method for determining a...then by operating this object-file codes in accordance with the synchronous structure (detailed later), software satisfying the development requirement can be realized as due. The 'synchronous structure' is a principle...

...requirement. That is, unless otherwise, it cannot be said that the phenomenal existence 201b of software requirement and the phenomenal existence 201a of program could be grasped as a philosophical proposition ...semantic rule 801b.

Speaking conclusively, when this theory is applied to the existence phenomenon of software of the initial development stage, this Deuteronomic order 801a corresponds, for example, to identifier 401 which identifies words transmitted as development requirement 400...the Volition Rule which is established in this manner (A set positioned first in the order corresponds to the distribution dense set 1301, formed the last in the permutation which selects...are pasted so as to attain the purpose of entry support for the data of ordered products.

(Product 15717

(Price 15719

Also, File 15721 in Fig. 157 is a file with...

...In this file, the following words are pasted so as to attain the purpose of order data management.

(Customer 15723

(Product 15725

(Sales 15727

Also, as to the contents to be processed in Fig...be registered into Order data management File 15721 (step 15704, 15706, 15739, 15827, 15928).

Also, Customer 15703, Product 15705, Price 15731, Quantity 15709, Amount 15738, Sales 15740 are to be output...data 2701 has no semantic quality thus ends process sustaining NOP.

Next, in the T1W03 Pallet Function 16148, the Homogeneity Vector R3S Customer from 16151 to L3F Sales 16161 bundled in T1W04P Pallet 16150 starts to operate autonomously...

...Homogeneity Vectors shown below, so they are observed individually.

(1) Homogeneity Vector specified by R3S Customer 16151, R3S Product 16152 and R3S Quantity 16153 is a Homogeneity Vector (R-type Duplication ...examination (2901) of the Duplication Vectors corresponding to words possessing semantic data, that is, Y4S Customer 16103, Y4S Product 16104, Y4S Quantity 16105, Y4F Product 16109, Y4F Customer 16111, and Y4F Product 16112. The data is duplicated (copied) into the domain of individual...

Biased serial ink jet printing system for textiles
In schräger Richtung arbeitendes seriellcs Tintenstrahldrucksystem für
Textilien

Système d'impression oblique en série par jet d'encre pour textiles

PATENT ASSIGNEE:

Scitex Digital Printing, Inc., (1701611), 3100 Research Boulevard,
Dayton, Ohio 45420-4099, (US), (Proprietor designated states: all)

INVENTOR:

Rayfield, Wilson P., 1969 Springtree Court, Dayton, Ohio 45459, (US)

LEGAL REPRESENTATIVE:

Freed, Arthur Woolf et al (30752), Edward Evans Barker Clifford's Inn
Fetter Lane, London EC4A 1BZ, (GB)

PATENT (CC, No, Kind, Date): EP 829368 A2 980318 (Basic)
EP 829368 A3 990609
EP 829368 B1 020206

APPLICATION (CC, No, Date): EP 97306940 970908;

PRIORITY (CC, No, Date): US 710103 960911

DESIGNATED STATES: DE; FR; GB

INTERNATIONAL PATENT CLASS: B41J-002/21; D06P-005/00; B41J-003/54;
B41J-019/20

ABSTRACT WORD COUNT: 100

NOTE:

...SPECIFICATION with the present invention, achieved by angling the scan
direction across the width of the web;

Fig. 4 is a vacuum bed configured to hold the web flat under
biased scanning printheads;

Fig. 5 illustrates a printhead array parallel to the web...

...beyond the print station, it is stripped off the belt. Fig. 4
illustrates a vacuum bed 22 configured to hold the web and belt
flat under biased scanning printheads. In accordance with the present
invention, it is...

Detailed Description

Detailed Description

... air-randomized. These four, carded webs - I 1 were layered onto the above-described prebond web , with the resultant precursor web hydroentangled on flat bed entangler 12 by twelve manifolds configured as described above and operated at 100 psi, 300 psi, 600 psi, and 1000 psi...3 ounces per square yard. These carded webs were layered onto the above-described prebond web , with the resultant precursor web hydroentangled on flat bed entangler 12 by twelve manifolds configured and operated as described above. This precursor web was then imaged and patterned on image transfer device 18

having a "smooth tacks" pattern...

... at the required lengths of time for a particular application.

The drier operates with one bed on line and the other on
regeneration. In order to regenerate a bed heat is required to drive
off the impurity from the bed. The waste gas is...

...is then isolated from the vortex and the purified stream is fed direct
into the bed. This supplies gas at an ambient temperature in order to
cool the bed prior to coming on line.

The bed then changes over and the opposite bed is regenerated. The
example of this...
